

Chapter 6– Financial Accounting, 3rd Edition by Dyckman, Magee & Pfeiffer

Practice Quiz

Topic: Extraordinary Items

LO: 3, 7

1. Which event would be considered an extraordinary item?
 - a. Costs of a strike
 - b. Gain from the sale of a subsidiary
 - c. Warehouse fire
 - d. Recording stock option expenses

Topic: Reporting Restructuring Charges

LO: 7

2. Jogo reported restructuring charges of \$67 million in its 2010 income statement. The following additional details were disclosed in its footnotes:

Restructuring charges included the following	2010
Asset impairment-planned closure of 4 plants	\$43
Employee severance and related costs	14
Contract termination and other exit costs	<u>10</u>
Total	\$67

Jogo's contract termination costs include, for example, the cost to buy out the remaining years on lease agreements, or penalties paid for canceling purchase contracts. Assume that none of these costs had yet been paid in cash in 2010. Record these restructuring charges in journal entry form.

- a.

Loss due to restructuring	67	
Plant assets		43
Liability for restructuring		24

- b.

Loss due to restructuring	67	
Liability for restructuring		67

- c.

Loss due to restructuring	24	
Liability for restructuring		24

- d. No entry until charges are paid

Topic: Carrying Amount of Accounts Receivable

LO: 4, 6

3. At what amount will accounts receivable be reported on the balance sheet if the gross receivable balance is \$18,000 and the allowance for uncollectible accounts is estimated at 8% of gross receivables?

\$ 1,440

\$18,000

\$16,560

\$19,440

Topic: Recognition of Revenue

LO: 1

4. When a company uses its market power over customers to induce them to purchase more goods than necessary to meet immediate needs, this is known as:
- Consignment
 - Bundled sales
 - Channel stuffing
 - Right of return

Topic: Accounts Receivable Turnover

LO: 5

5. All of the following statements are true for Garrison Company, who has an accounts receivable turnover rate of 10, *except*:
- Garrison may have less liberal credit terms than a company with an accounts receivable turnover rate of 5.
 - Using a 365 day year, Garrison waits approximately 36.5 days to make collections of its credit sales.
 - Garrison's accounts receivable indicate greater liquidity than those of a business whose accounts receivable turnover rate is 4.
 - Garrison writes off accounts receivables as uncollectible if they are more than 36.5 days old.

Topic: Uncollectible Accounts

LO: 4

6. Sampson Company had accounts receivable of \$140,000 and an allowance for doubtful accounts of \$5,400 just before writing off as worthless an account receivable from Cargo Industries of \$800. Based on this information, what would be the net realizable value of accounts receivable before and after the write-off?

	<u>Before</u>	<u>After</u>
a.	\$140,000	\$134,600
b.	\$139,200	\$139,200
c.	\$134,600	\$134,600
d.	\$134,600	\$133,800

Topic: Evaluating Business Segment Information

LO: 5

7. The Tower Company provides the following information about its business segments:

	2011	2010
Total net revenue:	\$450,000	\$380,000
Segment 1	440,000	365,000
Segment 2	330,000	300,000
Segment 3		
Earnings from operations before taxes:		
Segment 1	\$55,000	\$40,000
Segment 2	25,000	20,000
Segment 3	46,000	43,000
Net operating assets:		
Segment 1	\$430,000	\$280,000
Segment 2	120,000	100,000
Segment 3	150,000	110,000

Calculate the 2011 Return on Capital Employed (ROCE) for each segment.

- a. Segment 1 = 12.8%
Segment 2 = 20.8%
Segment 3 = 30.7%
- b. Segment 1 = 12.2%
Segment 2 = 5.7%
Segment 3 = 13.9%
- c. Segment 1 = 11.0%
Segment 2 = 18.8%
Segment 3 = 29.7%
- d. Segment 1 = 15.5%
Segment 2 = 22.7%
Segment 3 = 35.4%

Topic: Percentage-of-Completion

LO: 3

8. Jones Company is in the construction business. During 2010, Jones Company began construction on a project with total revenues of \$15 million and \$10 million of estimated construction expenses. At the end of the year, Jones Company has incurred \$7 million of expenses on the project. How much revenue should the company report using the percentage-of-completion method?
- \$15,000,000
 - \$ 5,000,000
 - \$10,500,000
 - \$ 5,600,000

Topic: Revenue Recognition

LO: 1

9. Below are four businesses and four ways to recognize revenues:

Businesses	Ways to Recognize Revenues
1. A drug store	A. Revenue is recognized under the percentage-of-completion method.
2. A consignment car dealer	B. The revenue can be recognized ratably over the period of time covered by the monthly fee.
3. An elevator manufacturer constructing the elevator under a 3-year contract.	C. When merchandise is given to the customer and the right of return period has expired.
4. Electric utility company	D. When ownership transfers to a third party buyer.

Which of the following best matches the business with the revenue recognition method?

- 1A, 2B, 3C, 4D
- 1C, 2D, 3A, 4B
- 1D, 2B, 3A, 4C
- 1C, 2A, 3D, 4B

Topic: Determining the Allowance for Uncollectible Accounts

LO: 4

10. Dallas Company has just completed an aging analysis of accounts receivable at December 31, 2010 as follows:

Age of accounts receivable	Receivable Balance	Estimated Percent Uncollectible
Current	\$75,000	1%
1-30 days past due	40,000	2%
31-60 days past due	22,000	8%

What is the appropriate balance for Dallas' Allowance for Doubtful Accounts at December 31, 2010?

- a. \$137,000
- b. \$ 5,069
- c. \$ 2,560
- d. \$ 3,310
